PAPA M SANOGO

has successfully completed the online, non-credit Professional
Certificate

IBM Product Owner

Completers of this professional certificate gained a deep understanding of the product owner role within the Scrum framework, equipping them with key skills for managing product development in Agile environments. They learned to define product owner responsibilities, authority, and accountability while understanding Scrum's values, roles, events, and artifacts. They created and communicated a compelling product vision aligned with organizational goals and market needs. Completers became proficient in managing and prioritizing product backlogs, writing user stories, and refining roadmaps. They also developed stakeholder management and communication skills and learned to prioritize features, apply lean startup principles, and plan releases to maximize value while minimizing waste.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
